Program Information

Target Audience

This meeting is designed for anesthesiologists in Chair, Core Program Director, Subspecialty Program Director and Program Administrator positions. Members may invite physician and non-physician guests. The program is designed to present and discuss areas of topical interest to attendees in keeping with our collective attempt to improve academic department's structure, function and the educational programs associated with academic learning.

About This Meeting

Topics for this meeting were selected by various methods. Suggestions for topics were derived from evaluations of the 2019 and other previous Annual Meetings, Council members, the membership at large and reviews of the published literature with the highest impact on the anesthesia specialty. These suggestions were discussed by our authorities in the field of anesthesia education or previous meetings.

The purpose of this Annual Meeting is to educate and share information that will enable academic anesthesiology departments to improve management and care.

This Meeting Will Provide:

- Institutional resources to support the educational, research and clinical missions essential to the day to day management of a successful academic anesthesiology department.
- Solutions to challenges in educating the next generation of trainees on issues of interpersonal communication skills, professionalism and systems-based practice.
- Ideas to design new modalities to incentivize their faculty to become best performers in fulfilling the educational and/or research missions of a successful anesthesiology department.

Special Needs

The Society of Academic Associations of Anesthesiology and Perioperative Medicine fully complies with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any attendee in this educational activity is in need of accommodations, please contact the SAAAPM at (414) 389-8619.

RRC Consultations

Friday, November 6 from 2:30pm – 6:00pm
Saturday, November 7 from 8:00am – 10:00am

Pre-Registration Required

The RRC for Anesthesiology will offer Core and Subspecialty program directors that attend the SAAAPM Annual Meeting a unique opportunity for one on one interaction with RRC members and staff to clarify questions, citations, etc., in a private setting.

Features of this program will be as follows:

- Individual private program guidance sessions with committee members and staff for RRC Anesthesiology. These will be guidance sessions only and no entries will be made into the program's official files.
- First-come, first-serve; programs to be notified of their date/time via email prior to arrival at the annual meeting.
- The service will be provided solely for Core and Subspecialty program directors.
- Sessions will each be 15 minutes in length.
- Only one session per program.
- Programs may take written notes but may not electronically record the session.
- ACGME staff will have on hand copies of Letters of Notification (LONs) and access to program files.
- Most sessions are expected to address issues such as understanding a citation, getting a sense of whether a proposal would be acceptable, etc.; it is expected that some questions may be very complex and would have to be researched and pursued later by staff.

RRC Consultation Registration

This consultation session is for Core and Subspecialty Program Directors only.
